

COMMUNICATIONS SYSTEMS DIVISION
815 BROADHOLLOW RD. FARMINGDALE, NY 11735 USA

SERVICE LETTER

SAAB 340

EQUIPMENT:

COMMUNICATIONS, DIGITAL AUDIO DISTRIBUTION SYSTEM, AUDIO CONTROL PANEL (ACP) P/N 502-0011-xxx.

SUBJECT:

Announcement of the availability of an improved, pre-screened and burned-in 5 Volt lamp for the ACP Transmit Select pushbuttons.

GENERAL:

An alternate and preferred lamp has been designated for use in the ACP illuminated pushbuttons. The new part number of this lamp is L235A017-16, this lamp should be ordered in place of either P/N's L235A017-14 or MS24367 lamp. Because of the requirement for a specific lead length, only the Telephonics part number should be used. The purchase of a generic part number will not guarantee a sufficient lead length.
